

FIREFIGHTER FIRST CLASS

(Promotional Class)

DISTINGUISHING FEATURES OF WORK

This is skilled firefighting work in combating, extinguishing, and preventing fires, in answering emergency calls, and in the operation and maintenance of fire department equipment, apparatus, and quarters.

Work involves training for and participating in the duties of protecting life and property through performing firefighting and rescue activities, usually under close supervision. Employees of his class are required to learn and participate in the operation of apparatus and the performance of hazardous tasks under emergency conditions, which may require strenuous exertion under such handicaps as smoke and cramped surroundings. Although firefighting and rescue work are the most difficult and responsible areas of work, the major portion of time is spent drilling and studying methods, techniques, and organizations, and in routine duties in the care and maintenance of fire department property and equipment. Specific orders and directions are given by superior officers, but the work required initiative and a thorough individual understanding of firefighting methods.

ILLUSTRATIVE EXAMPLES OF WORK

(Any one position of this class may not include all duties listed, nor do listed examples include all duties which may be found in positions of this class.)

Attends training courses; reads and studies assigned materials related to firefighting and prevention.
